EXPERIENCES

FRONT-END DEVELOPER

Hamkaran System (Abramad)

Feb 2025 - Present

Abramad: Abramad is a cloud services provider that simplifies access to IT solutions through reliable and secure cloud infrastructure. The company was founded with the expertise and capabilities of System Group, a leading provider of enterprise software in Iran. We deliver enterprise and managed cloud solutions using cutting-edge technologies.

FRONT-END DEVELOPER

Navatel

Jan 2025 - Feb 2025

Navatel's cloud-based CRM enables businesses to manage and enhance customer relationships by integrating multiple communication channels including calls, live chat, messaging apps, SMS, and fax into a unified platform. This all-in-one system ensures real-time connectivity and helps improve customer satisfaction through seamless, multi-channel engagement.

FRONT-END DEVELOPER

Ulfat E-commerce development company

Dec 2023 - Dec 2024

Zanjiretamin: Supply Chain Platform provides direct access to supply and demand, offering financial tools such as tailored loans, receivables financing, and securities to support businesses of all sizes.

Barhub: Optimizing supply, distribution, and production systems management is crucial for large enterprises. Advanced logistics solutions reduce costs, improve service quality, and enhance customer satisfaction despite high demand and operational complexity.

FRONT-END DEVELOPER

Parnian web design school

Aug 2023 - Jan 2024

I began my journey into front-end development here, building my skills from the ground up. During this time, I worked on several projects, which you can explore on my GitHub profile.

PROFILE

I'm a Front-end Developer and my professional journey revolves around three key elements: problem solving, attention to detail and collaboration. I have a strong desire for looking into complex issues and discovering innovative solutions.
